

# D/A Discreet Domed Video Surveillance System

Introducing the D/A Discreet Domed Video Surveillance System. . . The latest in D/A's expanding line of closed circuit video surveillance equipment. Designed for suspended ceiling installations, the Discreet Dome offers superior video surveillance, while at the same time complementing the aesthetics of any interior.

From shoplifting and internal surveillance to warehouse surveillance of shipping and receiving areas, the D/A Discreet Domed Surveillance System is ideal for retail as well as industrial applications.

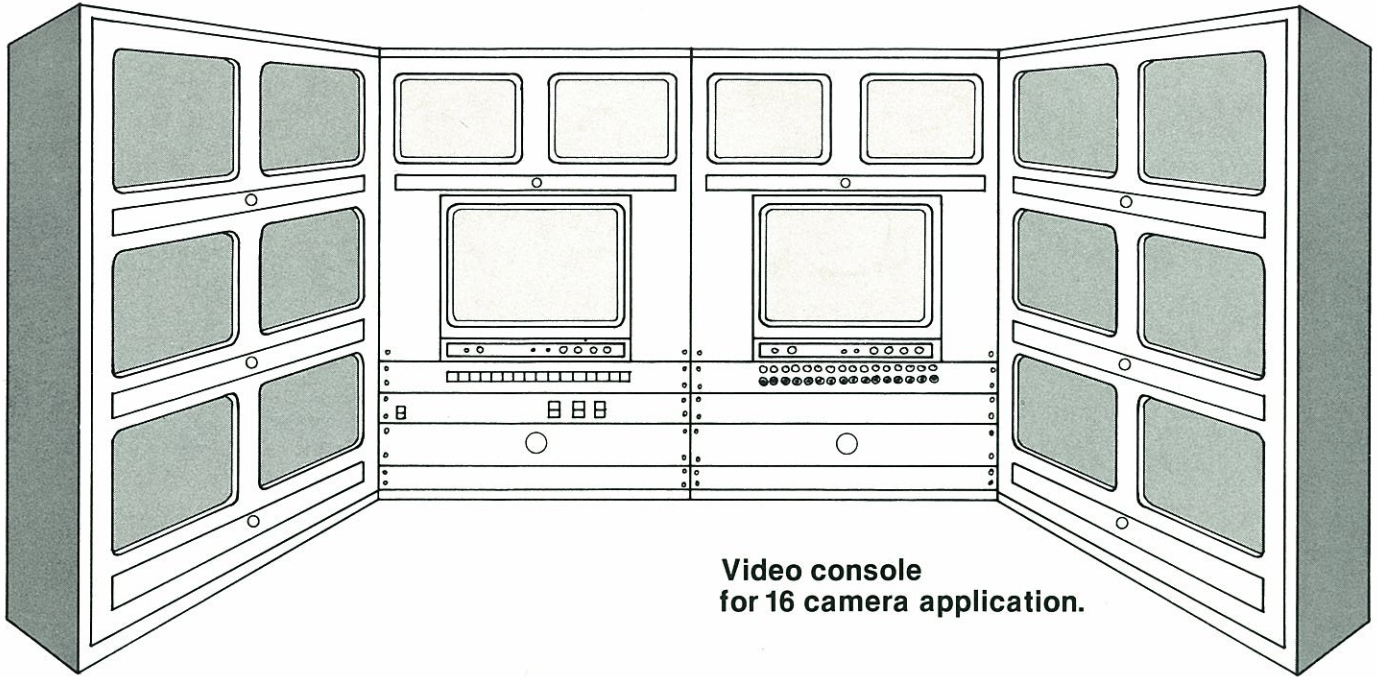

- Standard vidicon or subdued light camera with camera identification.
- State-of-the-art F1.8 motorized zoom lens with smooth, quiet operation.
- 360° panning area with 90° tilt at increased speed for chase application.
- Smoked plexiglass domes with one-way viewing.
- Designed to fit easily in a 2' x 2' ceiling tile.

*Continuous Surveillance Camera Systems Since 1957*

**D/A General, Inc.**

**Video console  
for 16 camera application.**

# The D/A Video Console

The D/A Video Console is designed to give the operator fingertip control for the entire system. The Video Console features 9" monitors for each camera location, or it can be designed with a minimum of monitors using a video switcher. A call-up 12" monitor has also been incorporated for chase applications.

Pan/tilt and zoom lens controls are built into the Console, and the D/A TLCR 8200 Video Cassette Recorder completes the picture with up to 300 hours of time lapse coverage.

- Fingertip control for entire system
- 9" monitors available for each camera location or group of locations.
- Call-up 12" monitor designed for chase application.
- Pan/tilt zoom lens controls incorporated within the console.
- Up to 300 hours of time lapse coverage with the D/A TLCR 8200 Video Cassette Recorder.
